Additional Information

Read This Notice: The submission of any film, prints, slides, negatives, videos, CD's or any other media to us for processing, printing, or any other handling, constitutes an agreement by you that if such film, print, slide, negative, video, CD or any other media is damaged, lost, or mishandled by our company or any affiliated company, agents or employees, even though due to the negligence or other fault of any of the foregoing, liability will be limited to replacement of an equivalent amount of unexposed equivalent film or media and processing. The foregoing will be your exclusive remedy for any such loss, damage or mishandling. Except for such replacement, the acceptance for processing, printing, or handling of any film, prints, slides, negatives, videos, CD's or any other media is without warranty whatsoever (whether expressed or implied) or liability of any kind. Recover for incidental or consequential damages is specifically excluded. NOT RESPONSIBLE FOR PROPERTY LEFT OVER 30 DAYS. The customer agrees to pay the standard charges therefore. Customer declares that all material submitted for transfer is not in violation of any copyright laws.

Standard Scan

Our standard scanning resolution for slides and negatives is 2500 ppi. Standard print scans are done at 600 ppi. This resolution is more than adequate for printing great photos up to 8x10. These are saved as JPEG files on a data disc. If you are looking to create a larger print, please check the box for our Hi-Res Scan.

Hi-Res Scan

This is our high resolution scan. With this service slides and negatives are scanned at 4000 ppi. Prints are scanned at 1200 ppi. These are saved as very large image files and can make fantastic poster-sized prints. The images are put on a data disc as JPEG files. TIFF format is also available for the Hi-Res service. Please indicate that you would like your images saved in this format.

Playable DVD Slide Show

A slide show DVD of your images is also available with your order. This is a slide show that you can play back and watch on your TV with a DVD player. Orders include a digitally mastered transfer on an Archival DVD, Vinyl Case with Thumbnail Scenes printed on the cover, Motion Thumbnail technology for quick scene selection, and a label on your DVD. The slideshow displays your slides in the order that you numbered them on screen for approximately 8 seconds with a 2 second dissolve between images. Background music is added to your order which gives you a choice of Easy Listening, Classical, or No Audio from the Main Menu. Slide Show DVDs can hold up to 500 images and are charged per DVD.
